Department of Public Health Dentistry
Out Reach Activities 2014

OVERVIEW

The branch of Public Health Dentistry deals with more of general dentistry at the out-reach levels and also with research on oral health care. The role of Public Health Dentist is equally important in today's world as we are able to make the dental care facilities available to the masses & needy people, to whom these services are not available at approachable & affordable standards. We at SGT University believe in planning and executing targeted goals so that we can perform our duties as health care clinicians to alleviate the enormous levels of dental diseases from all the age groups of the society.

The department is regularly conducting outreach activities on daily basis, thus providing screening and treatment for oral diseases in rural as well as urban areas in and around gurgaon-NCR. The objective behind such programs is to make the dental care facilities available to the masses & needy people, to whom these services are not available at approachable & affordable standards. The department has conducted around 186 camps during 2014. Around 10000 patients were screened and treated for their ailments at the camp site. Also, the patients were referred to the Faculty of Dental Sciences, SGT University for further advanced care. Some of the outreach/ extension activities organised by the department are as follows:

1. On 2nd April 2014, a dental screening camp was held at Shivaji Park, Khandsa road, Gurgaon where a total of 49 patients were screened for oral diseases.
2. A special oral healthcare camp was organized on 29th March, 2014 at an village Pasaur, Jhajjar District along with collaboration with Reliance SEZ Foundation. 85 patients were examined for various dental ailments. Treatment for 20 patients was done on the camp site. Also medicines were distributed to 50 patients.
